Combustible Dust Awareness for Coal Orientation

The PRB Coal Users' Group is partnering with PowerSafe™, the leading provider of standardized safety training for the utility industry, to bring Combustible Dust Awareness for Coal in a convenient, web delivered format.

If your workforce handles coal or work in a coal handling area, there could be hazards of combustible dust. This online course will assist the workforce in recognizing those hazards so that they may take appropriate actions to protect themselves and others.

Upon completion of this course, they will be able to:

- Describe the characteristics of coal
- Define elements needed for a combustible dust explosion
- Describe ways to prevent a coal dust explosion or flash fire
- Recognize and identify coal dust hazard(s) in a given situation
- Describe the ways they can protect themselves from identified coal dust hazards

Combustible Dust Awareness for Coal is a cost-effective, web-delivered course which can be accessed 24 hours/7 days a week. For more information on PowerSafe and the Combustible Dust Awareness for Coal call 877-345-1252 or email info@powersafetraining.org.
