

PowerSafe Training

Entergy requires that PowerSafe Generation Proctored (12PSGENP) and PowerSafe Entergy Fossils Specific (12ENTFO) training be taken at a proctored (monitored lab) location. Entergy will accept the ARSC Basic Orientation Plus (BOP) training in lieu of the PowerSafe Generation Proctored. Proctored training also means that each trainee will be asked to provide:

1. A valid form of identification (Driver's License, Military ID, State ID, Passport, Permanent Residence Card, or Merchants Marine Card)
2. Social Security card (Social Security numbers will be verified)

Select Training Location

Decide training location. These training partners set their own prices, may or may not offer member training discounts, and are either an Association of Reciprocal Safety Councils (ARSC) facility or a Non-ARSC facility. See [Appendix 1](#) or visit www.powersafetraining.org for full listing of ARSC and Non-ARSC training providers.

Note: ARSC and Non-ARSC facilities follow different procedures. Follow the appropriate steps below for ARSC or Non-ARSC locations.

ARSC Facility Training

ARSC, Step One:

Contact the ARSC facility and they will provide instructions for training your employees at their location. You will pay the ARSC council for your training. You should ask for pricing before you begin.

ARSC, Step Two:

Your employee(s) should complete the required courses. Remember employees must have proper identification and a Social Security card with them at time of training.

ARSC, Step Three:

Upon successful completion of courses the student will receive a badge listing course codes and expiration dates. Your employees' training results can be verified at www.powersafetraining.org. The training is valid for one year.

Non-ARSC Facility Training

Non-ARSC, Step One:

Create a Business Account and Login at www.powersafetraining.org, at least 3 days prior to training.

Click "Login" and click "Create Login". Complete information and submit.

You will receive your company's User Name and Password within 24-72 hours of creation. (This will be emailed to you. Please check your Spam Box).

Non-ARSC, Step Two:

Contact your Non-ARSC PowerSafe Training Partner to schedule a date to train.

Non-ARSC, Step Three:

Once date is known, register student for desired courses and location at www.powersafetraining.org. Student must be registered before training.

Click "Login" and click "Login to Database".

Enter username and password.

Select company and payment option:

1. Approved member invoicing through PowerSafe (member application on website)
2. Credit Card
 - a. Put "*credit card on file*" - contact Nancy Simpson at Safety Council LCA at nsimpson@esafetycouncil.com , or 225-282-3292
 - b. Use credit card at time of registration
 - c. Cannot make payment at training location, must be via invoice or credit card

Enter student's Social Security number.

Select location, course, date and time (AM/PM).

Non-ARSC, Step Four:

Direct employees to facility for scheduled date. Remember employees must have proper identification and a Social Security card with them at time of training.

Non-ARSC, Step Five:

Check in with Non-ARSC PowerSafe Training Provider's computer lab administrator for ID verification, social security verification and photo.

Non-ARSC, Step Six:

PowerSafe badge listing course code and expiration date will be mailed. Your employees' training results can be verified at www.powersafetraining.org. The training is valid for one year.
